The clear space has been established to ensure the logo's visibility and impact. Always maintain the clear space zone between the logo and other important graphic elements. **X** is the height of J.H. Rose's letter **H**. Apply this rule for all logo and icon options.

The logo should never be smaller than 3/4 in. Keep it readable to the eye and audience.

TEXTURES & ARROWS

DESIGN EXAMPLES

Using elements such as textures, overlap of images, and correct brand colors will provide consistency for all design materials. Textures provide a foundation for visuals and add depth. Overlap of lines and images guide the viewer's eye and create interest. Correct brand colors signal your J.H. Rose message and create an emotional connection. Consistency across channels creates a cohesive brand identity. Just like road design elements create a safe driving experience, these guidelines create a recognizable brand experience.
